

Central Party – for Jyväskylä people well-being

Come and build up with us attractive, safe and vital Jyväskylä!

Our targets

Successful conditions for growth of entrepreneurship and employment

- Smoother employment for people in any time of life
- Improving operational environment of entrepreneurs and companies
- Putting more emphasis on developing attractiveness and vitality of our city
- Exhilarating business development and growth
- Encouraging people to develop competences to business

Balanced public finance

We strengthen the finance of Jyväskylä by promoting employment and entrepreneurship. It boosts the local tax uptake while the fees and tax maintain reasonable and in competitive level. We are committed to reduce the bureaucracy and to shorten permission handling timeframe.

Smooth daily life will be provided by

- Ensuring public service availability and accessibility equally for everyone
- Producing comprehensive pre-natal and maternity care
- Supporting also childcare in homes
- Well-being of families is important, e.g. freedom of make own choices
- Investing in diversity and availability of services for elderly people
- Ensuring sufficient support elderly people who are willing to stay in their own homes and for their informal carers who take care of them

Commitment of high-quality education

We are committed to ensure for safe education track our children and young people together with their schools and their families. High-quality service from childcare up to the higher studies will be prioritized and resourced better than nowadays.

It has to be guaranteed that the young people finalizing compulsory education have enough education and work-based learning opportunities as well as supported housing available.

Fair opportunities to live and to construct in different environments

- Our growing city needs reasonable priced rental houses
- For us, “developing our city” means development of vital city center, green suburbs and rural villages so that people have genuine opportunities to choose the environment to live.
- The city should use its options to offer diverse sites to construct with fair land-use planning.

Diverse cultural and physical activity opportunities

Jyväskylä has a reputation of sport city. To maintain the reputation, the city has to take care of existing activity sites and to develop them. The aim is to adapt supply to demand and to increase the number of sites. The cooperation with the NGOs and associations plays key role.

In the promotion of cultural life, the novel opportunities as well as the focus are recognized in supporting voluntary activities.

Secure and enjoyable city is composed of..

- Service design as well as land use policy emphasis dialog with citizens
- Security and homely are given priority instead of commercial needs
- All citizens are encouraged to take responsibility that the city appears as inspiring and safe city
